TIMAK
MADE IN ALBANIA

HIGH SPEED BOAT AMBULANCE

Our Military Ambulance is built for rugged terrain, rapid deployment, and reliable medical evacuation in military operations.

Compliant with NATO and STANAG standards, it ensures safe patient care in combat zones and field environments.

TECHNICAL SPECIFICATIONS

General Information

Overall length suitable for rescue and medical operations	Hull material: GRP, wood, and aluminum
Displacement designed for optimal stability on water	Hull type: Rigid mono hull
Beam provides ample interior space and balance	Hydraulic steering system
Draft allows for effective near-shore navigation	
Powered by a twin-engine diesel system for reliability	
Designed to achieve high operational speeds when required	

Medical Equipment

Oxygen system: 2 x 10L complete set	Defibrillator
First aid kit	Upright medical fridge
Diagnostic set	Seating configuration for 8 passengers
Main stretcher	

Optional Features

7.1 5kW diesel generator	7.3 Rechargeable spotlights x2
